

GREEK STRIKERS FORTIFY SELVES ON TOP OF HILL

Gov. Spry of Utah Makes Peace Speech to Bingham Mine Workers

UNLAWFUL ACTS BY MEN ARE TABOOED

Executive's Address Causes Quieting Effect on Miners 4,500 of Whom Are Out

BINGHAM, Utah, Sept. 19.—The strike of 4,000 miners, which is on here, is no warlike settlement tonight than when the men walked out yesterday morning. The visit of Governor Spry to the camp and his address to the strikers had a quieting effect, and the disturbances of last night have not been repeated.

The Greeks abandoned their fortifications to listen to the governor's speech, and so far have not returned to them. It is said tonight, however, that they will again take up their position behind the breastworks tomorrow morning.

It is the plan of the forces of demobilization now on duty to prevent this. Other than an unusually large crowd of idle men in the streets, the situation here is peaceful and quiet.

Vandalism Tabooed
Charles Meyer, president of the Western Federation of Miners, has cautioned the strikers that destruction of property will not be tolerated by the union, and has advised the men that he will expel any member found guilty of committing unlawful acts.

The appearance of Governor Spry and the state board of labor conciliation and arbitration, as factors in the strike at Bingham, was the most encouraging feature of the day.

Dynamite Stolen
Today's developments indicative of trouble were the theft of more than 5,000 pounds of high power dynamite from the Utah Construction company's stores at Bingham, the inability of conservative leaders to control a certain element of the strikers, and the proposed service of warrants on a number of strikers responsible for the shooting and intimidation at the copper camp. The Greek miners are entrenched on a mountain commanding the works of the Utah Copper company. They left their fortress shortly before the arrival of the governor and his peace party this afternoon, and joined the audience which listened to the address by the executive and others, but an interpreter was quoted as declaring that the desertion was only temporary, and the fortress would be occupied again as soon as the governor departed.

WILSON CAMPAIGNS IN BIG RAINSTORM

Crowds Huddle Under Umbrellas to Listen to Democratic Candidate

DETROIT, Sept. 19.—Governor Wilson campaigned in the rain today as he traveled across the state for a speech here tonight. Everywhere his train stopped, Governor Wilson was greeted by crowds who stood huddled under umbrellas while the candidate talked on politics.

Several Wellesley college girls were on the same train with Governor Wilson, and they came back to his special car to meet him.

Governor Wilson said that he found subjects in the campaign so tremendous that they can hardly be handled by speeches from the rear end of a train.

"Moreover, the rear platform is not the democratic platform this time," he said. "We are in front, not in the back. But I must say that since I have arrived in Michigan, I have felt a singular stimulation, because everywhere here there is the same spirit of hope and confidence. I can explain it only in this way, that we all are genuinely interested in the one subject that lies nearest my own heart, namely, setting the government free. Because, whether it is done intentionally or not, there is no doubt about it that our government in recent years has been seriously entangled with the special interests of various kinds, and the men who got it entangled cannot get it disentangled. That is the whole point of the matter."

OYSTER BEDS ENDANGERED
WASHINGTON, Sept. 19.—Oyster beds at Jamaica, Long Island, and the Potomac river, are endangered by typhoid germs, according to the department of agriculture. Acting Secretary Hays issued a statement today, suggesting the state policing of oyster beds and action by government authorities to insure purification of the city sewage.

Many Thousands of Dollars Consideration for Mine Held Under Option

The group adjoins the Geesman claims which were recently bought by the Copper Queen, and were held under option for nearly two years.

The price for the Leatherwood claims was not disclosed, but it is stated to be many thousands of dollars.

ROOSEVELT FAVORS PRESIDENTS' RECALL

Bull Moose Leader Answers Bryan's Question as to Third Term Attitude

DENVER, Sept. 19.—A declaration in favor of the recall of a president was made here today by Col. Roosevelt. He said he proposed, that if as president, he found his views were in opposition to the desires of the people he should take the stump in the defense of his policies and should quit office if he could not win the support of his electorate.

Colonel Answers Bryan.
Col. Roosevelt's declaration was made in reply to a question addressed to him by W. J. Bryan in a recent speech at Pueblo, Colo. Bryan asked how many terms the president of the United States should serve. In reply Col. Roosevelt said: "As far as I am concerned I should be glad to have a recall of the president. It is not in the progressive platform so this is merely an expression of my personal feelings. My own experience was that I could do nothing as president except when the people were heartily with me. The minute I ceased to have them with me, whether their fault or mine, I ceased to have power."

Third Term a Bugaboo.
"Mr. Bryan professes to believe in the people. It was to the people that I made my appeal and in the primaries, by their votes the people decided that the talk of a third term in this case was the very worst bugaboo ever held to frighten political children."

Col. Roosevelt reached Denver at the close of the day's campaign in Colorado. The colonel's leading speech of the day was delivered at Trinidad and then he went to La Junta, Rocky Ford, Pueblo, Colorado Springs and Denver. After tonight's address Colonel Roosevelt left for Nebraska.

FATHER SHOTS SON-IN-LAW BY FATAL MISTAKE

Boy Is Thought to Be Wild Animal Prowling Near the Roadside Camp

WIFE PROSTRATED BY SUDDEN BLOW

Bride of Two Weeks Weeps Over Body of Husband Slain by Accident

TUCSON, Sept. 19.—Max Brezell, of Los Angeles, aged 22 years, and married only two weeks, was shot and mortally wounded Tuesday night by the father of his 18-year-old wife, Oscar M. Hunt, also of Los Angeles, while the elder and younger man and the bride of two weeks, who was Miss Olive M. Hunt, were in camp 20 miles southwest of Tucson, on the Arivaca road. Brezell died five hours later.

Thought Wild Animal
The father-in-law shot at what he supposed was a prowling wild animal in their camp, and was horrified to quickly discover that he had shot young Brezell.

The wounded man was hurried to Tucson in an ambulance, to the Rodgers hospital, arriving at 2:30 o'clock Wednesday morning, but died 20 minutes later. He became unconscious an hour before arriving at the hospital.

Make Camp on Road
The three campers arrived in Tucson a few days ago, en route to mining property in the county, in which the two men were interested. They held Tucson in a wagon fitted up for camping, and Tuesday night made camp by the roadside. All had retired for the night, the young man and his wife making their bed in the wagon box, the elder man sleeping some distance away.

At 10 o'clock, the father-in-law was awakened by a noise near the wagon, and saw what he says he thought to be a wild cat or other predatory animal. He had a rifle beside him, and hurriedly seized the gun and fired. The bullet sped into the body of Brezell, entering at one of his shoulders.

It was a tragic and harrowing ride to the hospital in Tucson, the wife, only 19 years old, weeping over the mortal body of her husband, ever held, and the father-in-law in agony of mind as a result of his terrible mistake, in that he had brought the husband of his child to his death.

The body of young Brezell has been sent to Los Angeles for burial.

WOMAN INVESTIGATOR PLACED UNDER ARREST

Roosevelt Appointee Accused of Concealing Public Records

WASHINGTON, Sept. 19.—Mrs. Helen Pierce Gray, of St. Paul, who as an investigator of the Crow Indian affairs for the Graham committee of the house causing stormy scenes at the last session of congress, was arrested here today on complaint of the Indian office and charged with concealing public records. She was released on her own recognizance, on the assurance of Senator Clapp of Minnesota that she will appear before the United States commission next Tuesday.

Mrs. Gray was charged with concealing the allotment roll of the Crow tribe, covering the Indian lands in Montana.

Upon her arrest today Mrs. Gray said that she had taken the files from the Indian office with the consent of former Indian Commissioner Valentine and had turned it over to the department of justice that it might be saved from destruction and used as evidence in a proposed investigation before the senate committee on Indian affairs.

Since she began investigating Indian affairs eight years ago, at the request of former President Roosevelt, Mrs. Gray declares she has been arrested eight times by persons who wished to impede her work.

JURY DISAGREES

WEAVERVILLE, Sept. 19.—After arguing all night, the jury trying John Wilson, of Eureka, on a charge of arson, reported today at the end of sixteen hours deliberation that it could not reach a verdict. Seven jurors were for conviction and five for acquittal.

The case will be called again tomorrow, but the district attorney is not sure he will press the case for a second trial.

Nelson already has been acquitted of the murder of "French Pete" Roberts, whose house was robbed and burned in an effort to conceal the crime, after Roberts had been shot. Three alleged accomplices pleaded guilty to murder, and were sentenced to life.

OROZCO TO MORELOS

DOUGLAS, Sept. 19.—General Roberto Velasco, commanding the first military zone, comprising Sonora, Sinaloa and Tepic, has resigned, according to advices from Hermosillo, the capital of Sonora. It is said there had been trouble between General Velasco and Governor J. M. Maytorena of Sonora, because of the latter's alleged desire to direct the military campaign against the rebels in his state.

General Velasco is reported today to be about nine miles north of Fronteras, between the rebels under Obregon and a rebel band of 200.

The federals were on their way to Agua Prieta in response to orders from General Salinas for all federals not being used to garrison American mining camps, to return to Agua Prieta in anticipation of an expected attack on the border town.

FAST OPPOSES THROWING OUT BUDGET SYSTEM

President Writes Letter to Secretary of Treasury McVeagh Favoring Plan

DECLARES HE WILL EXERCISE POWERS

Congress Cannot, Executive Says, Limit Him to Its Own Ideas of Information

BEVERLY, Sept. 19.—President Taft made public today a letter to Secretary of the Treasury McVeagh taking an open issue with congress on the question of the federal budget directing all heads of government departments and independent officers of the government to make their statements for revenue expenditures for the fiscal year in conformity with the budget plan.

The president's letter to Secretary McVeagh said that the clause in one of the big supply bills passed by congress at the closing hours of the last session, practically forbidding the use of the budget system, is unconstitutional.

Takes Issue with Congress.
In the letter to Secretary McVeagh President Taft says that if he is to assume the responsibility for the manner in which the business of the government is transacted or results are obtained, it is evident that he cannot be limited by congress to such information as that branch may think sufficient for its purposes.

In President Taft's opinion it is entirely competent for the president to submit to congress and to the country a statement of the resources, obligations, revenues, expenditures and estimates as he deems advisable. President Taft says this power he purposes to exercise.

Budget Is Necessary.
"The United States is the only great country in the world that does not have a budget," writes Taft. He adds "if congress is permitted to assume exclusive jurisdiction over what the president may see to learn about business transacted by the departments (if congress is to say that the president shall not find out what is the present manner of doing business and what results are being obtained, the president of the United States is short of the most important function of his executive power and duty."

INDIANAPOLIS, Sept. 19.—In a heated attack on Thomas E. Taggart and Joseph B. Keating here tonight, Governor Johnson of California accused them both of being leaders of a "republican-democratic boss alliance," and predicted their political downfall with the adoption of direct primary law in Indiana.

Governor Johnson declared the state was ripe for revolt against the alliance. This is the governor's first day in Indiana and he visited fourteen towns, the last four cities visited not being reached until after dark.

Mr. Bryan was greeted by a large audience. In an address, he called a roll of the reforms for which he declared the progressive democrats had been fighting for years. He wanted to know, when Colonel Roosevelt was president, where he stood on these questions.

ASSAILANT OF POLICE KNOWN

Whereabouts of Assassin of Officers Not Revealed to Station Men

VICTIMS

PHOENIX, Sept. 19.—Although they claim that they know the two Mexicans most directly implicated in the assault upon Chief of Police A. J. Moore and Policemen Harrison Williams and Alejo Valenzuela, which resulted in the death of Scott Price Monday evening, the city officers have not been able to put their hands on the fugitives.

"We know them, but we do not know where they are," said Captain H. McDonald this morning. George Briscoe is acting chief and Captain McDonald has charge of the station during the absence of the captain.

The department has caused a circular describing the Mexicans who are wanted to be printed and circulated. It gives the name of the one who slashed and stabbed the officers as Andreas Ramirez. The officers are by no means certain, however, that it really is his name. The Ramirez they have in mind is a laborer.

The man called Ramirez is described as being 35 years old, five feet 11 inches in height, weighing 150 pounds and having dark, curly hair. He also had a thin brown mustache, and at the time of the fight wore blue overalls, a blue shirt, white hat and no coat.

Description Given
No name is given for the other Mexican. His height is given at five feet six inches. He is unusually dark for a Mexican, and has a peculiar expression around the eyes and mouth. He wore a light gray suit, mercerized shirt, and lighter hat than the knife wielder. His hat was creased down the middle.

While the condition of Officer Williams is precarious, the physicians declare that he will probably recover. He is still bleeding internally, but the flow is very slight. He spent a quiet night, and his chances for complete recovery are increasing with each hour.

Chief Moore Recovering

Chief Moore also spent a good night. His wounds are beginning to heal nicely. While he has a long rest
